**POSITION TO BE  
FILLED BY:  
August 9, 2010**

### Requirements:

Must **qualify for** or possess the following credential: Designated Subjects Career Technical Education Credential. Qualification for the Designated Subjects Credential requires three (3) years of field experience in a sports medicine-athletic trainer setting. One (1) of those years must have been within the last five (5) years.

Must have a strong interest in teaching high school students who are seeking a career in Sports Medicine or Athletic Training. The successful candidate should have appropriate industry experience; the ability to individualize the course content and instructional techniques in order to meet a variety of student needs in learning styles; knowledge of employment and training practices in the related industry; and ability to communicate effectively in both oral and written form. Preferred: Athletic Trainer experience.

Applicant must demonstrate knowledge and experience in or teaching sports medicine or athletic training; knowledge of and ability to implement federal, state, and Department of Education requirements and standards for academic and career education in a classroom setting; knowledge of training and employment practices in community field sites in related fields of sports medicine or athletic training; ability to plan, coordinate, and implement successful student training placements; and ability to communicate effectively in writing and speaking with a variety of adults in the community and a diverse student population. Applicant must have the ability to work collaboratively with other Sports Medicine or Athletic Training instructors to maintain continuity in programs throughout the three high schools and ensure success of student placement in the community.

### General Description:

- Instructs high school students in the core area of sports medicine or athletic training in preparation for entry-level employment or to attend a college with advanced standing in this field.
- Maintains a responsible, job-related environment for individual and group instruction.
- Refines curriculum based on recommendations from a career technical advisory committee comprised of representatives from business and industry.
- Models and teaches positive guidance and classroom management techniques.
- Provides activities, projects and other materials that replicate the needs and requirements found in related employment fields.
- Develops and maintains positive contacts with field site supervisors and employers to provide successful training and placement opportunities for students.
- Supervises students in field site training.
- Works cooperatively with ROP and high school faculty in grades 9-14 Career Paths.
- Maintains records of attendance, grades and competency level for each student including follow-up reports.
- Participates in staff development activities, workshops and seminars.
- Works effectively to secure enrollment (speaking, informational meetings).
- Performs other duties as assigned by the Superintendent.

Tri-Valley Regional Occupational Program is an Equal Opportunity / Affirmative Action Employer. The ROP is in compliance with Title IX of the Education Amendments of 1982 and does not discriminate on the basis of race, color, religion, ancestry, national origin, age (over 40 years), sex, marital status, medical condition (cured or rehabilitated cancer), or physical handicap in any of its programs, activities, or employment practices.
